Forecast for Saturday 24 Jul 2021

Weather: Rather cloudy at low and mid-levels but cloud thinning and breaking from late morning leading to a fine, dry, warm and sunny afternoon. However low cloud may spread again from the east for the evening.

Chance of cloud free mountain/hill tops above 800m: Near 100% with the early and late lower cloud expected to be confined below this level.

Visibility: Generally good or very good, but very poor in lower cloud early and late with cloud quite extensive for a time between 100 and 500m.

Met Office Aberdeen Meteorologist's View
High risk of sunburn in exposure, particularly in west during the afternoon.

Forecast for Sunday 25 Jul 2021
Weather: Similar to Saturday with the vast majority enjoying another fine, dry, increasingly sunny, warm day. However a further risk of some lower cloud early and late in the day.

Maximum wind: Variable, mostly easterly, 15mph or less.

Chance of cloud free mountain/hill tops above 800m: Near 100% with the early and late lower cloud expected to be confined below this level.

Visibility: Generally good or very good, but very poor in lower cloud early and late with cloud quite extensive for a time between 100 and 500m.

Temperature: **Glens:** Plus 8 Celsius increasing 24 Celsius for a time during the afternoon
At 800m: Plus 12-15 Celsius increasing 18 Celsius for a time during the afternoon
Freezing level: Well above all summits
